Black Lives Matter Movement

British Columbia, Canada - More than ever, the Black Lives Matter movement is growing and becoming stronger, as the expanding global calls for action. The murder of George Floyd is the result of inhumane police brutality that is perpetuated by the history of white supremacy; he is just one of the countless members of the Black community that were killed due to this tendency.

The predictable consequences of a racist and prejudiced system that has treated the Black community as the enemy from the beginning need to come to a stop now, with the support from all citizens over the world. The discrimination among the people on the basis of their skin colour is a problem worldwide. As the Black community faces racism, degradation, and discrediting frequently, white supremacy is at use here to stand up for what is right and it is high time to raise our voices against the wrong.

The peaceful protesters that speak out against the police killings of Black citizens, racial profiling, and racial inequality are just some ways that one may help. Signing petitions, donating money towards foundations, as well as just educating oneself are other ways that you can assist in this movement. Please check the link in our bio to see how you can help.

BC Youth Council fully and completely supports the peaceful protesters as well as this movement. We stand proudly towards fighting for an equal society. For all lives to matter, Black lives NEED to matter too.

It is our responsibility to bring a change for their good. Join the movement to fight for freedom, liberation, and justice. Black Lives Matter.
